

# SF 1230

## WHEELED EXTINGUISHER

Discover the ultimate clean agent wheeled unit solution with the Amerex Model 775 featuring Standard Fluids™ SF 1230. SF 1230 offers rapid and effective fire suppression without leaving any residue behind. This non-conductive liquid is perfect for protecting electronic components and other valuable assets, as it minimizes damage and keeps systems operational. It quickly penetrates tight spaces and often extinguishes fires before they reach the flame stage.

MODEL 775
