

About Us Fire Safety Equipment is an Australian owned company that has been operating since 1999. A wholesaler of high quality fire extinguishing equipment, including fire extinguishers, fire suppression systems, services and maintenance equipment. The company operates warehouses located in Brisbane, Sydney and Auckland, with distributors located across Australia, New Zealand and the Pacific Islands.

Mission Statement Fire Safety Equipment aims to provide our customers with state-of-the-art products and value for money. In today's global market, this requires sourcing from local and international manufacturers. We provide assistance with installation, certification and technical support. Our motto, "The company that cares", drives us to continuously search for and develop the best solutions to address the unique conditions and challenges of each customer and application.
